Uned Ddarlledu Allanol Outside Broadcast Unit

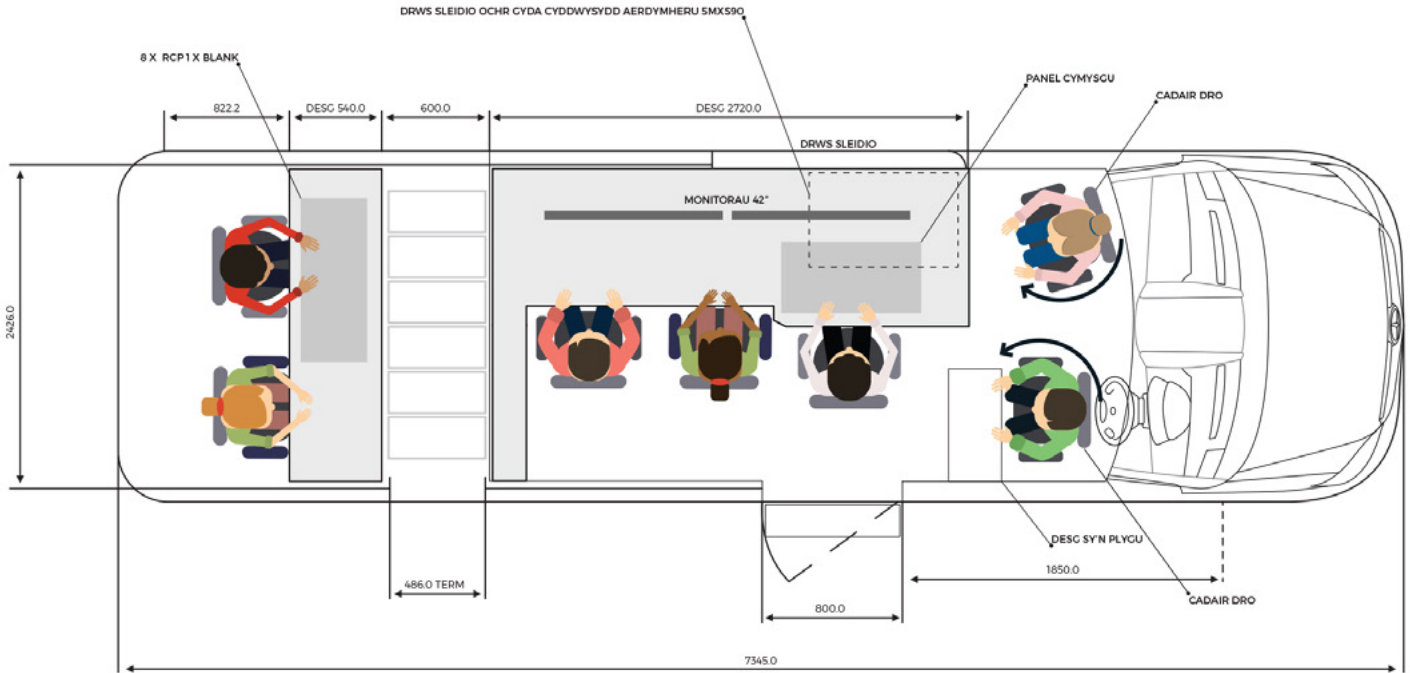

Cafodd yr Uned Ddarlledu Allanol ei hadeiladau yn 2018 gan Spectra gyda'r nod o ddarparu awyrgylch gyfforddus o ansawdd uchel â datrysiad cost-effeithiol i wasanaethu'r farchnad Darlledu Allanol bach-canolig. Ynystod ail hanner 2018 cwblhaodd y cerbyd 25 o gynyrchiadau. Mae ei hyblygrwydd yn ei gwneud yn addas i amrywiaeth o ddarllediadau - o chwaraeon i gerddoriaeth yn ogystal â datrysiadau AV ar gyfer cynadleddau.

Mewn partneriaeth â Ethosaudio.co.uk, cynigiwn wasanaeth o'r radd flaenaf i gytundebau sy'n mynnu darpariaeth sain gymhleth. Byddem wrth ein bodd yn trafod yr uned â chi er mwyn archwilio sut y gallem fod o gymorth gyda'ch gofynion.

The Outside Broadcast unit and tenders were coach-built in 2018 by Spectra with the aim of providing a high-quality and comfortable environment whilst also offering a cost-effective solution to service work in the small-mid OB market. During the latter half of 2018 the truck completed over 25 productions. Its versatility enables its usage on all sorts of event coverage - from sport to music and also AV solutions for conferences.

We have partnered up with Ethosaudio.co.uk to provide a world-class service for contracts that demand a more complex sound provision. We'd be delighted to discuss the unit with you in more depth and to explore how we could help you with your requirements.
